

SINGAPORE SCHOOL KINDERLAND NEWSLETTER TERM 3 PRIMARY 1-4

Dear Parents,

Eid Mubarak! Hope you have all had a great celebration and enjoyed the holidays.

We have approached the final Term of this Academic Year. This is going to be a very busy Term and will fly by very quickly. Our most awaited Annual Concert and Graduation Ceremony will be held on 03 June. The students will need to practice for the Annual Concert throughout the Term along with the regular academic activities, therefore regular attendance is mandatory for everyone. We need your kind cooperation regarding this matter. You will be notified about the tickets for the Concert that will be available at SSK Office shortly.

Term 3 had also been quite a happening Term. I would like to thank our Parents for their enthusiastic participation in all school programs, especially at the Art Festival and International Mother Language Day in Term 3. I personally want to thank the parents of SSK, especially the father of Falaq Hossain from P5 and the mother of Zarah Akhand from P6 for their wholehearted participation in our IKEBANA Workshop which was conducted by a renowned Ikebana Artist Sonia Razzaque. Thank you for always encouraging the children with your presence.

The teachers and students must get a huge round of applause from me for their excellent performance throughout. I love to see our capable teachers working with the happy children in the classrooms.

IMPORTANT DATES

Please mark your calendar for:

Science Fair: 25 May 2023

Annual Concert: 03 June 2023

**Semestral Assessment-2 : 18-21
June 2023**

Report Card : 06 July 2023

I would like to take this opportunity to introduce Ms Raiyana Parveen as the Principal of Primary and Secondary Sections of SSK. She will be looking after the academics from this Term.

I will be available anytime you need me. Just feel free to make an appointment and I would love to meet you at my office.

Best regards,
Kanta Saadat
Director Operations

SINGAPORE SCHOOL KINDERLAND NEWSLETTER TERM 3 PRIMARY 1-4

Greetings!!

I have joined SSK with a promise to progress the children's values, thoughts, skills, knowledge and intellectualize to its surrounding area. The students of SSK get individual care as per their need and demand. We are providing education from PG to A Level with academic excellence that will prepare the student to meet the challenges for 21st century.

To motivate the learners, we provide a wide range of style and resources. We welcome all to visit our campus as we believe everyone has a hidden potential and together, we can unlock this potential. Our motto is to engage our parents in order to develop our learners' eagerness towards collaborative education. I believe a strong **TEAMWORK** among parents, teachers and students can lead us to optimum **SUCCESS**.

Raiyana Parveen
Principal (Primary/Secondary)

PRIMARY 1 NEWSLETTER

Term 3

In Term 3, the students were taught the art of story writing, which is essential for their progress in the language. They began by listening to various stories as dictated by the teacher and learned how the different parts of the stories are connected to make it more interesting. The students then wrote stories on their own, in the process of which they learn to express their feelings in written form and they kept on practicing to make their writing skills better. Besides, they learnt to spell words through the games played during the class hours like "White Board Race" and "Spelling Bee".

Puppet Show

All the students and teachers gathered and participated in different songs and folk dances, offered flowers to the Shahid Minar, and wore black and white on the International Mother Language Day to pay homage to the martyrs. The celebration of the Pohela Falgun was another event during the term to remember and cherish. Besides, SSK celebrated Independence Day with an Art competition and a small cultural performance by the primary students. In celebration of Sheikh Mujibur Rahman's (Father of the Nation) Birthday, SSK students watched a documentary on his life and mission and Primary students from the Recitation Club recited a beautiful poem on the occasion.

International Mother Language Day

Art Festival

Greetings from Primary 1

Term 3 ended well for the students, teachers, and everyone else. Besides learning the fundamentals, students learnt important lessons that will help them to move forward in their life and would make their life easier. We wish to welcome the parents and the students with more energy, enthusiasm, and excitement for the final term.

Multiplication was introduced in Term 3. Our effort was to make the learning as easy as possible. Hence, we have used visualization techniques to help the children remember different methods to conduct multiplication with the help of Mental Mathematics. Bingo games, Picture Graphs and Colorful tables were all part of the learning activities to make the class more fun and interactive.

Class Activity

Artworks

Science lessons were mostly focused on teaching the students about the importance of Water on a daily life. Firstly, they learned about the water cycle, and how the water is balanced and distributed across various regions. Then we taught them what are different forms in which water is stored, and finally students were taught different ways to save as much water as possible. The lessons were to make the students aware of water waste at an early age.

During their IT classes, students learnt to make presentation slides on Microsoft PowerPoint. Children made presentations on their class activities and also presented it in front of their parents. They are taking baby-steps for their future endeavors.

Excursion Activity

An entire week was dedicated for learning the values and cultures associated with our nation- Bangladesh. As part of the Art Festival Primary children went to Courtside Clay Station for the entire day (excursion) to learn how to make beautiful potteries using clay. Students were immersed in crafting their unique pieces of Art after a quick workshop with one of the instructors. The final day of Art Festival week was festive as all our SSK students and teachers came together and the students participated in various Art workshops on different types of paintings, Rickshaw Art, and Calligraphy. All of the wonderful Arts and Crafts pieces were displayed around the campus in a final exhibition as an end to an exciting and creative week.

PRIMARY 2 NEWSLETTER

Term 3

A Note to Parents

We are delighted to update you on the progress of our Primary 2 students throughout Term 3. This term has been full of enriching experiences and engaging lessons that have helped our students grow both academically and personally.

International Mother Language Day

During our Science classes, our students studied about living organisms and their habitat. They learned about the different habitats in which living organisms can be found and the roles they play in the ecosystem.

2D and 3D shapes, counting in money, and measuring mass were our topics in Mathematics. Students were able to co-relate and describe 2D shapes with 3D shapes. Our students were also introduced to counting and making change using money, helping them to develop real-world problem-solving skills. They learned how to measure weight using a weighing machine and the use of different units of measurement.

Story Writing improved significantly with grammatically correct sentences. The students learned to identify and use different parts of speech to create effective sentences. They were able to apply this knowledge into their Story Writing, developing more complex sentences, making their stories more interesting.

Outside of the classroom, our students have had the opportunity to participate in a range of cultural and artistic activities. We celebrated Pohela Falgun, International Mother Language Day, and Sheikh Mujibur Rahman's Birthday, which gave our students the chance to learn about and appreciate their heritage. Additionally, as part of the Art Festival, our students visited Courtyard Clay Station to learn how to make beautiful pottery with clay. The final day of the Art Festival week was filled with excitement as all SSK students participated in various Art workshops, including different types of paintings, Rickshaw Art, Clay Station, and Calligraphy. The Arts and Crafts pieces were displayed around the campus in a final exhibition.

We are proud of our Primary 2 students for their hard work and dedication throughout Term 3. We hope that the skills and experiences they have gained will serve them well in the future. We look forward to seeing them continue to grow and excel in the next term.

Thank you!

International Mother Language Day

"If we had no winter, the spring would not be so pleasant: if we did not sometimes taste adversity, prosperity would not be so welcome."

— **Anne Bradstreet**

"We started Term 3 with colors of spring - yellow, orange and green. A week-long Art festival was held to welcome the season of renewal and rejuvenation. Visit to the Courtyard Clay Station helped touch our children's senses for nature and expression of feelings in the form of art and modeling. We thoroughly enjoyed all the different forms of art while getting our hands dirty and souls clean.

Parallely, we sowed different seeds in the classroom to learn how plants start their life from a seed, some water and warmth. Thus, germinating to start not just their life cycle but that of all living things on this Planet Earth.

Then we took Matters in hand and learnt about all the different types of matters around us. Students thoroughly enjoyed the topic with hands-on experiment that involved measuring weight and volume of solid, liquid and gases to learn about the properties of Matter.

Students published their own Newspaper articles while learning about the various sections of a newspaper. Writing the articles enabled them to work on their skills of grammar, vocabulary and identifying factual information. Next, they learnt about planning Holidays! Yes, from looking through the brochures to booking air tickets and hotel rooms, then choosing activities to do during their stay. We did All!

Furthermore, the month of February brought a series of events like the "Matri bhasha and Shadhinota dibosh". Here the whole school united to honor the martyrs of this country and the sacrifice of their families. We are very proud to be Bangladeshi's!

Thank you!

PRIMARY 4 NEWSLETTER

Term 3

International Mother Language Day.

Greetings to Parents!

We have had yet another busy term with lots of fun activities and new learning experiences. This Term, Primary 4 learnt to compose Nonsense Poems and Acrostic Poems as well as learning to write Book Reviews as part of their English lessons.

In Science, they learned about Heat energy and how it applies to everyday life.

This term, we took a trip to Clay Station where the students had a lovely time making things out of clay. We also commemorated our martyrs and celebrated our love for our mother tongue as part of International Mother Language Day on 21st February. Primary 4 students sang songs and paid tribute to our martyrs who sacrificed their lives for our language. They also took part in dancing and poetry recitation.

Looking forward to another busy and fun-filled term and wishing our students all the best and a Happy Eid!

Regards,
Gina Khan
